

Finding Volunteer Opportunities

Educators are continuously requesting (virtual) sessions with professionals to discuss a range of topics with their class(es). You can stay up-to-date with these volunteer opportunities several different ways:

- 1) Check your inbox. We'll email you whenever sessions are requested that match your skill set (so make sure [your profile](#) includes your many talents!). Also add Pathful Connect to your contact list to ensure the messages catch your eye.
- 2) Browse the Pathful Connect platform. You can [click here](#) to see what's currently available or access the list from either of these locations on the [Dashboard page](#):

The screenshot shows a sidebar menu on the left with the following items: Sessions (with a dropdown arrow), Create Session Request, Browse Request Templates, Session Collections, Browse Volunteer Opportunities (highlighted with a red box), Recommended Sessions, Session Calendar, My Sessions, and My Templates. Below this is the 'Industry Connections' section. A red arrow points from the 'Browse Volunteer Opportunities' menu item to a large orange card on the right. The card has a wavy pattern and contains the text: 'View Volunteer Opportunities', 'Browse speaking requests to connect with a classroom looking for your skills.', and a right-pointing arrow.

Using the Search Bar

You can refine your search by entering keywords in the search bar or using the filters underneath. You can also easily reset your search by deleting your keywords and/or clicking on Clear Filters.
